

ESTABLISHED 1835.

NATIONAL CALENDAR

OR

HERRICK'S ALMANAC

FOR THE YEAR OF OUR LORD

1897

Being, until July 4th, the 121st of American Independence,
IN WHICH ARE CONTAINED, AMONG OTHER USEFUL AND ENTERTAINING MATTERS,
THE REMARKABLE

ECLIPSES,

Lunations, Conjunctions, and Aspects,

WITH

TABLES OF THE RISING AND SETTING OF THE SUN AND THE MOON, TIDES, AND
A NOTICE OF THE SUN'S FOUR CARDINAL INGRESSES.

"For He hath given me certain knowledge of the things that are, namely: to know how the world was made, and the operations of the elements; the beginning, ending, and midst of the Times."—WISDOM, vii. 17, 18.

Published by the Proprietors of

DR. HERRICK'S
FAMILY MEDICINES,

No. 69 MURRAY STREET, NEW YORK, U. S. A.

PRESERVE THIS FOR THE COMING NEW YEAR.

Our Salutory for 1897.

In the days of the Ancients when Galen, Æsculapius, Celcis, Hippocrates and other learned savants of the healing art were deified as gods and worshipped by the Greeks and Romans, the treatment of disease was of the most primitive character, surgery a synonym of brutality and anæsthesia unknown. It would be indeed a sad commentary upon the intelligence of the medical profession if, during the past two thousand years, some advance had not been made in the science of medicine. It is a fact, however, that little appreciable headway was made before the beginning of the present century. Fifty years ago certain human ailments which were considered incurable are now perfectly amenable to treatment and radical cure. This is a result of the profound research and personal sacrifices of men whose chief aim in medicine was to ennoble the profession by evolving means for relieving the sufferings of their fellow-man. This motive has been the one, unselfish aspiration of DR. HERRICK'S life, and for over three score years his marvelous family remedies have proved indeed a blessing to mankind. At the bedside of the sick DR. HERRICK first demonstrated the astonishing effects of his now famous remedies. As his experience ripened he was impelled at intervals to add to his specific cures and never once rested from his great work for humanity until he had given to his race a curative remedy for nearly all general ailments to which flesh is heir. From among his many excellent preparations perhaps no one found more instant and universal favor than his justly extolled VEGETABLE PILLS. These SUGAR-COATED marvels compelled an ever-increasing popularity, richly merited and sustained by their prompt, pleasant and magical effects. DR. HERRICK'S VEGETABLE PILLS are perfectly soluble, readily assimilated by the most sensitive stomach, and early recognized as a positive cure for the countless ailments arising from a disordered digestion. By digestion we of course wish to be understood as referring to the action of the entire alimentary canal, which includes the stomach, liver, pancreas, intestines and for purposes of elimination, the kidneys. By the subtle power of DR. HERRICK'S VEGETABLE PILLS, organic secretions are increased, the appetite improved, the blood re-vitalized and the whole system cleansed of its impurities, with the ultimate result of perfect health. In short DR. HERRICK'S VEGETABLE PILLS as a ministering medicine to sterling health have no equals. A trial will convince you. Try them.

An invaluable auxiliary in the cure of nervous prostration and muscular inertia super-induced by either mental or physical overstrain may be always found in DR. HERRICK'S PERFORATED STRENGTHENING PLASTERS. In this connection it is wise to remember that DR. HERRICK'S KID STRENGTHENING PLASTERS, manufactured from the purest Canada Balsams, are wonderfully efficacious in the treatment of Lung trouble. They act, by absorption, directly upon the inflamed tissues, allay congestion; neutralize effete products; soften secretions and insure an early and permanent restoration to health.

In the varied conditions where mustard sinapisms are indicated we recommend as a desirable substitute the use of DR. HERRICK'S CAPSICUM OR RED PEPPER PLASTERS. They fully meet all the advantages of mustard and attain the desired rubifacient action without causing the slightest inconvenience or pain. DR. HERRICK'S CAPSICUM PLASTERS are too well known to require advertisement or praise. They speak for themselves. In Rheumatism, Gout, Neuralgia and allied complaints we would suggest DR. HERRICK'S PERFORATED BELLADONNA PLASTERS as positively without a peer. For many years they have maintained an easy supremacy over a host of would-be imitators, and are to-day literally worth their weight in gold.

Another of our brilliant successes is RENNE'S PAIN KILLING MAGIC OIL—a veritable marvel of chemical ingenuity, and known for its sterling merits throughout the civilized world. In fact we feel justified in assuming that no single remedy in the pharmacopœa is so universally in demand as RENNE'S MAGIC OIL. Its uses are as varied as the iridescent colors of Joseph's coat and no medicine case is complete without it.

In our ministrations to suffering humanity we have not permitted ourselves to forget the welfare of man's most faithful friend—the horse. In our special preparation of HARVELL'S CONDITION POWDERS we present a panacea so generally endorsed by horsemen, that more than passing comment is unneeded.

HARVELL'S CONDITION POWDERS, in conjunction with DR. HERRICK'S GERMAN HORSE LINIMENT, for man or beast, afford a perfected combination of such practical excellence, that when used a veterinary's aid is rarely required.

In conclusion, we would announce in kindly encouragement to those suffering from CATARRH, HAY FEVER, ASTHMA, or diseases of the upper air passages, that in the use of DR. PERRIN'S FUMIGATED AND MEDICATED CIGARETTES they may find prompt, reliable and permanent relief. In cases of long standing, such as have heretofore defied successful treatment, THE STANDARD CUBE CIGARETTES are preferable and without equal.

Having thus briefly enumerated our various FAMILY REMEDIES, we now courteously invite the reader's attention to the specific action and universal success of our preparations as detailed in the following pages of this Almanac. And should such perusal redound to the benefit of ailing mankind, we shall rest content in the conscious truth that this our 60TH ANNUAL pilgrimage among the people has added, at least something, to the happiness of the world.

PLANETS REGARDED AS MORNING AND EVENING STARS, 1897.

Morning Stars.

MERCURY, from January 22 to April 1, and from May 21 to July 15, and from September 22 to November 8.

VENUS, from April 28 to end of year.

Evening Stars.

MERCURY, from the beginning of the year to January 22, and from April 1 to May 21, and from July 15 to September 22, and from November 8 to the end of the year.

VENUS, from the beginning of year to April 28.

Planets Brightest or Best Seen in 1897.

MERCURY, January 6, after Sunset ; February 15, before Sunrise ; April 28, after Sunset ; June 15, before Sunrise ; August 26, after Sunset ; October 7, before Sunrise ; and December 20, after Sunset. VENUS, at greatest brilliancy March 21, after Sunset ; and June 4, before Sunrise. MARS, not this year. JUPITER, at Opposition February 23. SATURN, at Opposition May 18. URANUS, at Opposition May 17. NEPTUNE, at Opposition December 12.

Seasons for 1897.—EASTERN STANDARD TIME.

EMBER DAYS, 1897.

Wednesday, Friday and Saturday, March 10, 12 and 13. | Wednesday, Friday and Saturday, June 9, 11 and 12.
Wednesday, Friday and Saturday, Sept. 15, 17 and 18. | Wednesday, Friday and Saturday, D. c. 15, 17 and 18.

ECLIPSES IN 1897.

In 1897 there will be two eclipses, both of the Sun.

I.—An Annular Eclipse of the Sun February 1 ; visible in the Eastern and Southern parts of the United States, to Mexico and Central America, the Western part of South America, and the South Pacific Ocean; visible to the Southern and Eastern portions of the United States as a Partial Eclipse as follows : Eastern Standard Time. Eclipse begins February 1, 1h. 25m. p. m. Middle of Eclipse February 1, 3h. 6m. p. m. Eclipse ends February 1, 5h. 4m. p. m.

II.—An Annular Eclipse of the Sun July 29, visible to the greater portions of North and South America, a small part of the Pacific Ocean; the greater part of the Atlantic Ocean, and the extreme western part of Africa. Visible as a Partial Eclipse in the United States as follows : Eastern Standard Time. Eclipse begins July 29, 9h. 4m. a. m. Middle of Eclipse July 29, 10h. 59m. a. m. Eclipse ends July 29, 0h. 49m. p. m.

Explanations of Symbols and Abbreviations used in this Almanac.

☉ The Sun. ☾ The Moon. ☿ Mercury. ♀ Venus. ♂ Mars. ♃ Jupiter. ♄ Saturn.
♅ Uranus. ♆ Neptune ☌ Conjunction, or close to. ° Degree. □ Quadrature, or 90° from.
♄ Opposition, or 180° from. ♋ Ascending Node. ♎ Descending Node.

MOONLIGHT EVENINGS.—Persons who desire to ascertain when the Moon will shine well, for the purpose of **EVENING EXCURSION PARTIES, PIC-NICS**, etc., may consider the evenings favorable for those purposes for *three nights before Full Moon*, and for *four nights after Full Moon*. The Moon's rising *after the full* will occur *after sunset*, and about fifty minutes *later* each evening. The time of rising will be seen in the pages of the Almanac. The *best* time is at *Full Moon*.

TIDE TABLE.

To find the time of High Water, add or subtract the hours and minutes opposite the name of place in foregoing Table to or from the hours and minutes of High Water at New York for the required day, as found in the *Calendar pages*.

NOTE.—The F* of Table shows average difference in heights between High and Low Water.

+ Signifies Add.

— Signifies Subtract.

LEGAL HOLIDAYS IN VARIOUS STATES.

July 4 (INDEPENDENCE DAY), and **Dec. 25** (CHRISTMAS DAY), together with **THANKSGIVING DAY** (usually last Thursday in Nov.), and Fast Days, when appointed, are legal holidays in all the States.

January 1 (NEW YEAR'S DAY), in all States, except Arkansas, Delaware, Georgia, Kentucky, Maine, Massachusetts, New Hampshire, North Carolina, Rhode Island, and South Carolina.

February 22 (WASHINGTON'S BIRTHDAY), in all States except Alabama, Arkansas, Florida, Illinois, Indiana, Iowa, Maine Missouri, North Carolina, Ohio, Oregon, Tennessee, and Texas

General Election Day (generally first Tuesday after first Monday in November), in California, Maine, Missouri, New Jersey, New York, Oregon, South Carolina, and Wisconsin.

Decoration Day (May 30), is in Colorado, Connecticut, Maine, Michigan, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont.

Good Friday (April 16), is in Florida, Louisiana, Minnesota and Pennsylvania.

Shrove Tuesday (Mardi Gras) (Mar. 2), Louisiana, Cities of Mobile, Montgomery and Selma, [Alabama.

Memorial Day (April 26), is in Georgia.

Anniversary of the Battle of New Orleans (January 8), is in Louisiana.

Lincoln's Birthday (Feb. 12), New York.

Anniversary of Texan Independence (Mar. 2) and **Battle of San Jacinto** (Apr. 21), Texas.

Labor Day (first Monday in September), New York.

Firemen's Anniversary (March 4), in Louisiana.

RENNE'S PAIN-KILLING MAGIC OIL.

To save your Health and Doctor's Bills,
Always use Herrick's Vegetable Pills.

Ask for our Cubeb Cigarette.

Instant Relief for Catarrh.

The Law of Cure._____

Some two thousand years ago a doctrine prevailed among medical men that the human body contained FOUR HUMORS, and from the quantity, quality and mixture of these fluids health or disease obtained. This period was known as the Humoral Age. From that era to the present time many medical theories have been introduced, and as a result, no uniform system of cure has been adopted by physicians. As a matter of fact no two colleges of medicine teach the same theoretical opinions, and it is a notorious truism that doctors rarely, if ever, agree on the pathology and treatment of disease. For the same malady a dozen diametrically opposed drugs are prescribed. If the victim be blessed with a superlative constitution he may survive—if not, he either dies or joins the already over-crowded ranks of chronic invalidism. From this uncontrovertible line of reasoning, it logically follows that more distress results from OVER-DRUGGING than from the undisturbed sequence of any and all ailments in the category of disease.

The aborigines—our own American Indians—who were once famous for their longevity and physical excellences, have fast decimated under the Upas of modern usages. In other days they never used any medication save the simplest vegetable and herbal yield of their forest homes, and not until the baneful encroachment of civilization did serious disease appear among them.

The natural tendency of disease is always toward recovery. Nature, when burdened with morbid influences, makes an effort to throw off the exciting cause. In the rational treatment of human ailments this law should always be observed. To assist, not obstruct, Mother Nature's efforts to perfect a cure is the highest desideratum of medical science. Over-drugging is the antithesis of intelligent practice. The simpler the remedy, the less irritating and the more efficacious the results. Digestion is the most important of human processes. A faulty digestion is the primal cause or incentive of nine-tenths of all diseases. This fact is easily proved. Indigestion—lack of assimilation—produces impure blood; impure blood starves the nervous system—the citadel of vital force—and disease follows as surely as darkness the setting of the evening sun. The stomach is the despotic monarch of the digestive realm. A disordered Stomach means, through nervous transmission, a sluggish and inactive Liver. Dyspepsia is but Nature's cry for aid to throw off the evil effects of indiscretions. What is needed is simply a pure and harmless HELP to Nature's power, and this is abundantly supplied in the botanic preparation of DR. HERRICK'S VEGETABLE LIVER PILLS. Their action is to neutralize the elements of constructive disease, eliminate the products of fermentation, arrest congestive tendency, and produce health.

DR. HERRICK'S VEGETABLE PILLS thus prevent, as well as invariably cure, all ailments arising from faulty assimilation. It has been wisely said that an ounce of prevention is better than a pound of cure. This saying is the profound deduction of an analytic mind. A close observance of the aphorism had much to do in the creation of DR. HERRICK'S VEGETABLE PILLS. Their wonderful affinity with Nature's laws make them a protective as well as a remedial agent when enfeebled nature temporarily yields to the onslaught of disease. These conclusions are drawn from the successful results of over fifty years practical tests, and are verified by thousands who have felt the marvelous efficacy of DR. HERRICK'S VEGETABLE PILLS and know by experience that they regulate digestion, enrich and purify the blood, strengthen the nerves, invigorate the system and restore health.

Dr. Herrick's German Horse Liniment,

FOR MAN OR BEAST,

Is unquestionably one of the very best preparations of its kind yet presented for public favor.

BATTERY PARK AND CASTLE GARDEN.

Battery Park, at the southern end of the city, looking upon New York Bay, is one of the oldest parks in the city ; has an area of 21 acres. We get the name from fortifications erected by the first Dutch settlers of Manhattan Island.

Castle Garden, situated in Battery Park, was originally a fort, from which it derives its name. From 1855 to 1890 it was used as the Immigrant Depot, at which time the depot was changed to Ellis Island. In 1824 Marquis de Lafayette was given a grand ball in the Garden, and in 1832 President Jackson, and in 1843 President John Tyler, were publicly received. Later it became a concert hall and is famous as the place where Jenny Lind, the "Queen of Song," made her first appearance in America. The Garden is now being transformed into a public aquarium.

For a Medicine of Sterling Merit

Renne's Pain-Killing Magic Oil

Is pleasant to use, either internally or externally, and richly deserves the great success it has attained.

Has the Credit.

TRY IT, READER, FOR

***Colds, Sore Throat, Rheumatism,
and all Pain.***

**Then you will not wonder why it is used
in so many families.**

Bicycle Riding is the *fin de siecle* craze of the age. Its seemingly irresistible tentacles have caught in their grasp all manner and conditions of men, including women, children, and even infants. It is not our present purpose to dwell upon the merits or demerits of bicycle riding in relation to health. Suffice that it is a recognized institution of the current generation, and as such must be bowed to and accepted. The effort of riding a wheel brings nearly all of the major muscles into active operation, their secretory functions are greatly stimulated, and copious perspiration follows. If this effete matter is left to be reabsorbed into the system, the muscular tissues become irritated, and later inflamed, and Rheumatism results. The external use of **RENNE'S PAIN-KILLING MAGIC OIL** will, by its well known anti-arthritis properties, neutralize the poisonous absorptions, stimulate the excretory pores, invigorate the muscular tissues, and leave the offending parts even stronger than before the invasion of disease. **RENNE'S MAGIC OIL** is easily first in popularity with all lovers of athletic pastimes, for it is known that Bruises, Sprains and Cuts fade before its mystic balm as do the phantasies of a troubled dream at daylight's hour. The wrench and oiler are essentials of the cyclist's tool-bag, but not more so than a ready-for-reference bottle of **RENNE'S PAIN-KILLING MAGIC OIL**. Be forewarned and wise, and equip your wheels in accordance and be safe.

Sarcasm.—Chumley—"Bah Jove! Miss Newman, I thought you were a man, dontcherknow!"
Miss Newman—"I never made any such mistake as that about you, Mr. Chumley."

Jones—"Talk about crocodile's tears! the whale beats him all hollow."
Hall—"Is that so?"
Jones—"Yes; the whale is full of blubber."

Murrain is a disease of cattle, and peculiar to newly settled sections. This fact is explained in the lack of proper sanitary conditions, such as drainage, etc.

The treatment consists in the administration of a stimulating purge, viz.: a large dose of **HARVELL'S CONDITION POWDERS**, and the after protection of the animal against exposure and draughts. Follow this with bandages about the ulcers, the wrappings to be saturated with **DR. HERRICK'S GERMAN HORSE LINIMENT**. The application of this liniment should be continued until the external evidence of inflammation has wholly subsided. By this treatment the swollen limbs will gradually, but surely, resume their normal condition, and the bovine restored to wonted vigor.

Heart Disease.—The slightest apparent irregularity in the heart's action usually causes the most extreme anxiety. The commonly accepted belief that a disturbance of this organ must prove fatal is a fallacy easily disproved. Functional derangements of the heart are readily reached and permanently cured. Organic disease is quite another condition. The heart is the generative factor of circulatory force—the distributing medium of the essence of life—the blood. Anything which interferes with the free action of this organ of a necessity impedes the force and efficacy of the blood supply. Among the many causes of functional derangement of the heart are hysteria, violent exercise, sudden excitement, as from fear or violent emotion, but chiefly from an overloaded or dyspeptic stomach. As a result of the fermentation of unassimilated food, gas accumulates and distends the stomach, which in turn presses against the walls of the heart, thereby limiting its action and producing palpitation, pain, oppression, and a long list of distressing symptoms calculated to cause urgent and almost unappeasable alarm. These phenomena are simply the effect of the heart's struggle to do its work, irrespective of the "crib'd, cabin'd and confin'd" condition incident to the temporary overlapping of the stomach. It is speedily enabled to do this with the aid of **DR. HERRICK'S SUGAR-COATED VEGETABLE PILLS**, which, by their well-known action, promptly remove the cause—the offending gastric engorgement—soothe the nervous excitation by especially acting upon the cardiac (heart) branch of the pneumogastric nerve, thus lending direct tone, invigoration and strength to the heart's muscles, and restoring the organ to its normal state of vigorous and healthful activity.

Mrs. Casey—"Moike, did yez put out th' cat?"
Mr. Casey—"Oi did."
Mrs. Casey—"Oi don't belave it."
Mr. Casey—"Well, if yez tink Oi'm a loiyer, g'wan an' put her out yersilf!"

"Tell, if you please, what makes disease?"
A plain and simple question.

"Of causes all, both great and small,
The worst is Indigestion."

"But what will kill this grievous ill,
And honor richly merit?"

"Why, **SUGAR-COATED VEGETABLE PILLS**
Prepared by **DR. HERRICK!**"

Moral.—In all cases of Gastric, Liver and Intestinal trouble use nothing but the recognized specific—the world-famous **DR. HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS**, and reap your reward in the certain happiness of a long life, free from the inheritance of mortal pains and aches.

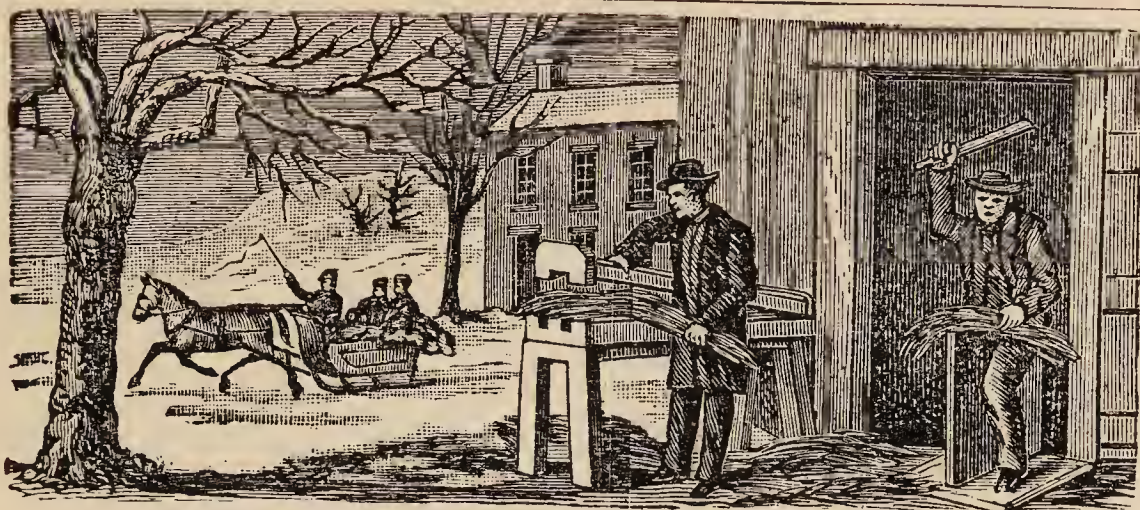

HERRICK'S SUGAR COATED VEGETABLE LIVER PILLS.

For those you love you always toil,
Then to make them happy, buy Renne's Magic Oil.

Herrick's Preparations are always in great demand, and never fail to cure.

Of Plasters, the best we ask you to buy,
Herrick's are the kind that will always satisfy.

Quality the Best, in all of

They Please Everyone.

Constipation is the penalty of intestinal torpor due to either atony of the muscular coat of the bowels, or to deficiency of bile or intestinal secretion. It may originate from indiscretions of diet or as a sequence of diseases of the stomach and liver. Irrespective of origin, the treatment depends upon the successful removal of the cause. The emergency is wholly met by the use of DR. HERRICK'S SUGAR-COATED VEGETABLE PILLS. By the gentlest of invigorant action, they stimulate the biliary secretions, increase peristalsis, and thus, by aiding the natural processes, bring about normal, healthy evacuations. The daily continuance of this remedy for a brief period will cure the worst forms of chronic constipation. Purges and drastic cathartics should be avoided as positively injurious.

Colic.—This is a distressing ailment from which neither sex, age or race are exempted. The growing contingent are especially prone to gastric and intestinal disturbance in the early fruit season, and suffer untold agony as a penalty of over-indulgence. Every mother knows the frequency and oftentimes obstinacy of this painful complaint, and the regrets occasioned by not having a ready remedy at hand to relieve the sufferings of her little ones. Such annoyance may be avoided by having a bottle of RENNE'S MAGIC OIL constantly in the house. A few drops of this invaluable remedy will instantly relieve the sufferer of pain. A single after dose of DR. HERRICK'S SUGAR-COATED VEGETABLE PILLS will remove the cause.

BRIDAL FANCIES.

Married in white, you have chosen all right ;
Married in gray, you will go far away ;
Married in black, you will wish yourself back ;
Married in red, you will wish yourself dead ;
Married in green, ashamed to be seen ;
Married in blue, he will always be true ;
Married in pearl, you will live in a whirl ;
Married in yellow, ashamed of your fellow ;
Married in brown, you will live out of town ;
Married in pink, your spirit will sink.

Bobbie—"Mother, were all the bad men destroyed by the flood?"

Mother—"Yes, my son."

Bobbie—(who has just received a whipping from his father)—"When is there going to be another flood?"

Why She Did It.—"Mamma," said the little girl, pointing at the woman on the other side of the car, "what makes the lady wear her rings outside her glove?"

"Hush," said the mother in an aggravated stage whisper. "Don't be rude. The lady wears her rings outside her glove to keep them from blackening her fingers."

Malaria produces various types of fever. Its chief action is upon the liver and spleen, congesting both and causing profound functional derangement. Malaria is a miasmatic product arising from swampy ground, stagnant pools, and seems very partial to certain localities. Its baneful influences may be readily controverted by DR. HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS. This remedy is infinitely superior to arsenic and quinine in malarial poisoning, and can be looked to with perfect confidence in the treatment of Intermittent, Remittent, Congestive and Bilious Fevers. Again, DR. HERRICK'S SUGAR-COATED VEGETABLE PILLS are soluble, and the easiest of medicine to take.

BUSINESS LAWS IN BRIEF.

Ignorance of the law excuses no one.

An agreement without consideration is void.

Signatures made with a lead pencil are good in law.

A receipt for money paid is not legally conclusive.

The acts of one partner bind all the others.

Contracts made on Sunday cannot be enforced.

A contract made with a minor or lunatic is void.

Principals are responsible for the acts of their agents.

Agents are responsible to their principals for errors.

Each individual in a partnership is responsible for the whole amount of the debt of the firm.

A note given by a minor is void.

Notes bear interest only when so stated.

It is not legally necessary to say on a note "for value received."

A note drawn on Sunday is void.

If a note be lost or stolen, it does not release the maker; he must pay it.

It is a fraud to conceal a fraud.

The law compels no one to do impossibilities.

A personal right of action dies with the person.

An oral agreement must be proved by evidence.

A written agreement proves itself. The law prefers written to oral evidence, because of its precision.

Only about two minutes are required for the blood to course through the heart, thence to the lungs back to the heart, and then through the entire body, and return to the heart.

A Parisian inventor is endeavoring to perfect a phonographic watch. If he is successful, the world will soon see a watch which, by touching a spring, will whisper the time in your ear.

Bob—"I don't think I care for the New Woman."

Tom—"Why not?"

Bob—"She's usually too old."

Renne's Pain-Killing Magic Oil

USE RENNE'S PAIN-KILLING MAGIC OIL.

For Horses and Cattle, Harvell's Powders are the best,
If you wish to be convinced, just put them to a test.

When you have nervous or bilious chills,
Always use Herrick's Vegetable Pills.

is asked for all over the World?

Why is it that

The Development of a Chick.—The development of a chick within the egg is one of the most wonderful things in nature. At the end of the fifty-eighth hour of incubation the heart begins to beat, two vesicles are seen, and a few hours later the auricles also appear; on the fourth day the outlines of the wings may be perceived and sometimes of the head also; on the fifth day the liver is visible; on the sixth, other internal organs appear; in 190 hours the beak is fully formed; in 200 hours the ribs are clearly developed; in 240 hours the feathers are visible; in 268 hours the eyes appear; in 288, the ribs are completed and the feathers on the breast; in 330, the lungs, stomach and breast have assumed a natural appearance. On the eighteenth day the first faint piping of the chick is sometimes audible.

Insomnia, or sleeplessness, if long unchecked, will shatter the nervous system and lead to insanity. Many contributory causes are known to aggravate this really serious nervous malady. Prominent in this class is the too free indulgence of the pleasures of the table. First, the stomach is overloaded; the delicate tissues become charged with the waste, which acts as a positive poison, the nerves transmit the irritation to the brain, and the mischief is done.

Moderation and the use of DR. HERRICK'S SUGAR-COATED VEGETABLE PILLS will remove the elements of irritation, soothe the inflamed parts, and bring back sweet, refreshing sleep. As a nervine in gastro-intestinal disturbances DR. HERRICK'S VEGETABLE PILLS have no equal.

The Horse, in the full magnificence of perfect health, is a creation admired by every true lover of the beautiful. The proud poise of the head, the coat of glossy fineness, the well-rounded and symmetrical contours pregnant with strength, the elastic step, free and buoyant, and the animated eye—all bespeak freedom from disease and the watchful solicitude of a painstaking master. These qualifications, so desirable in the horse, are simply the result of proper nourishment, exercise, considerate care, and the occasional use of HARVELL'S CONDITION POWDERS. As an invigorant tonic in comparative health it prevents the possible advent of disease, and creates surprising stamina and vim to the whole organism.

"Are you sure," she tremblingly asked, "that you will not become tired of me, after a year or two, and regret the step we are about to take?"

"Perfectly sure," he said, forgetting himself, "for have you not said that your fortune is so invested as to make it last for at least twenty years?"

YUETA CHEWING GUM is one of the most exquisitely delicious confections of the age. Its delightful combination with herbal aromatics add to the idle charm of luxury the tonic benefit of the purest herbs.

Science tells us that Pepsin is an essential to digestion. This digestive ferment is a product of the stomach. Without it digestion comes to a standstill, and Dyspepsia results. Physicians knowing this prescribed pure Pepsin to supply nature's loss.

YUETA PEPSIN CHEWING GUM presents an invaluable vehicle for the pleasant administration of Pepsin. Each tablet will digest 2,000 grains of food.

YUETA PEPPERMINT CHEWING GUM possesses in a concentrated form all of the delicately aromatic and stimulant qualities of Peppermint. It allays nausea, relieves pain in the stomach and bowels, and expels accumulated gases, the results of undigested food, purifies the breath, prevents the formation of tartar on the teeth, hardens the gums, and as a stomachic tonic stands without equal.

YUETA BIRCH CHEWING GUM is one of our most deservedly popular preparations. Bicyclists will find in YUETA CHEWING GUM one of the very best of road stimulants. By its use the salivary glands are mildly stimulated, and a sweet, aromatic moisture of the mouth and throat obtained, which prevents the troublesome thirst incident to long rides. It will be found an invaluable substitute for any and all fluid stimulants, sometimes, but incautiously, used upon the road, and thereby prevent troublesome bowel complaints, so well appreciated by all long distance riders of the wheel.

Specify YUETA GUM, and accept no other.

A ton of Atlantic water, when evaporated, yields eighty-one pounds of salt; a ton of Pacific water, seventy-nine pounds; the water of the Dead Sea, more than twice as much—187 pounds to the ton.

To Prolong the Candle.—A small piece of candle may be made to burn all night by putting finely powdered salt on it until it reaches the black part of the wick. A small, even light may be kept in this way.

The Vastness of Siberia.—A graphic idea of the immense size of Siberia may be gleaned from the following comparison: All of the states, kingdoms, principalities, empires, etc., of Europe (except Russia), and all the United States, including Alaska, could be placed side by side in Siberia, and yet but little more than cover that immense country.

Herrick's Belladonna Plasters.

HARVELL'S CONDITION POWDERS.

Relief from Pain and Aches to those who toil,
If they but use Renne's Pain-killing Magic Oil.

As a cure for Toothache and Headache upon Magic Oil rely,
And when traveling always carry a supply.

One trial, and you will use no others.

TERRACE IN CENTRAL PARK, NEW YORK CITY.

One of the most charming, as well as the most inviting spots, is the beautiful Terrace shown as above. It leads to the Fountain and Lake, and repays all who are fortunate enough to make this one of the "Sights" when visiting our City.

Sprains are the result of a violent stretching of the ligaments about a joint which strain or partially tear the surrounding tendons, with possible rupture of the blood vessels. Sprains of the ankle, knee or hip, on which there is constantly more or less pressure, is by no means a trifling matter. This might be said with double emphasis in relation to the ankle joint, when bad management might result in permanent impairment. Immunity from evil consequences may be confidently expected where RENNE'S MAGIC OIL is early and persistently applied. The joint should be well bandaged and kept constantly saturated with RENNE'S MAGIC OIL. Caution should be observed against the too early use of the part.

ITEMS OF INTEREST.

It does not pay to sell grain or hay off the farm when it requires almost the price in commercial fertilizers to replace the fertility of the soil. Better feed the crops to stock and enrich the soil of the farm.

In China all land belongs to the State, and a trifling sum per acre, never altered through long centuries, is paid as rent; this is the only tax in the country, and it amounts to but about sixty cents per head.

White House Expenses.—The contingent expenses of the Executive branch of the Federal Government for 1896, in addition to the salary of the President (amounting to \$50,000 a year), were \$43,200. These include the salaries of a private secretary, assistant secretary, executive clerk, disbursing officer, four clerks, steward, usher, five doorkeepers, four messengers, a watchman and an engineer, and the cost of stationery, record books, telegrams, library books, horses, harness, carriages, etc.

HERRICK'S GERMAN HORSE LINIMENT.

If you suffer from Catarrh and no remedy can get,
You will find instant relief in a Perrin's Cubeb Cigarette.

For Strains and Sprains use Herrick's German Liniment,
It has no equal in cases of accident.

For the old-fashioned kind,

are in great demand.

Sore Throat.—The most aggravated cases of Tonsillitis, Quinsy, the angina of Measles and Scarlet Fever, are all speedily relieved by a few doses of RENNE'S MAGIC OIL. A single administration, aided by the external application of this sovereign remedy, has successfully cured cases when long and painful treatment by the usual methods have failed. Used as a gargle, its action is immediate, soothing the congested glands and reducing inflammation with magical promptness. RENNE'S MAGIC OIL is also unsurpassed in the treatment of Thrush, Swollen and Sensitive Gums, Sprue, Cankered Mouths, and allied complaints. Its action is always swift, painless and sure.

HELP IN CASE OF ACCIDENTS.

Burns and Scalds.—Cover with cooking soda and lay wet cloths over it. White of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water.

Lightning.—Dash cold water over a person struck.

Sunstroke.—Loosen clothing. Get patient into shade, and apply ice-cold water to head. Keep head in elevated position.

Mad Dog or Snake Bite.—Tie cord tight above the wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whiskey, brandy, etc.

Stings of Venomous Insects, etc.—Apply weak ammonia, oil, salt water, or iodine.

Fainting.—Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

Fire in One's Clothing—Don't run—especially not down stairs or out-of-doors. Roll on carpet, or wrap in woolen rug, wet if possible. Cut holes for the eyes. Don't get excited.

Fire from Kerosene.—Don't use water; it will spread the flames. Dirt, sand or flour is the best extinguisher, or smother with woolen rug, tablecloth or carpet.

Gall Stones are due to a variety of causes, both chemical and climatic, which produce a catarrhal state of the mucous membrane of the bile ducts and gall bladder. Contributory to the establishment of this condition is the over-indulgence in starchy, saccharine and fatty foods. The fermentative qualities of these foods are known to produce and keep up a catarrh of the mucous surfaces necessary to the inspissation of bile and formation of gall stone concretions. The passage of these hardened particles from the gall bladder to the cystic duct give rise to the disturbance known as Bilious Colic. The agonizing torture entailed by this affection is without par-

allel. The symptoms are urgent and ushered in by sudden, excruciating pain on the right side, radiating to the back and shoulders, vomiting, profuse sweat, especially about the head, with cold and clammy extremities. Constipation is the rule. If the passage of the concretion is prolonged, the tissues become charged with bile pigment, and the unfortunate sufferer takes on the saffron-hued complexion of the opium den habitue of the Orient. The first duty in treatment is the alleviation of pain. This is speedily accomplished by the free and generous external ablution of the parts and the prompt internal administration of RENNE'S PAIN-KILLING MAGIC OIL. Both the inward and outward application of this remedy in conditions of this character is imperative. Supplement the treatment by free dosage of DR. HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS to correct the temporary excitation of the liver cells and to allay the catarrhal irritation. After the urgent symptoms have subsided, it would be of immense advantage to the patient as a preventive precaution against recurrence of the trouble, to strengthen the liver, and thereby make it less liable to subsequent invasion, by wearing DR. HERRICK'S PERFORATED STRENGTHENING PLASTERS for at least several months after an attack of bilious colic. The immeasurable benefits derived from such a course will abundantly offset any slight annoyance occasioned by the treatment.

Distribution of Population.—Of every 1,000 inhabitants of the globe 558 live in Asia 242 in Europe, 111 in Africa, 82 in America, 5 in Oceanica and the Polar regions, and only 2 in Australia. Asia contains more than one-half of the total population of the earth, and Europe nearly one-fourth; Africa contains only one-ninth, and America only one-twelfth. In Australia the entire population is less than the number of inhabitants in the city of London alone, or in the cities of Paris and St. Petersburg combined.

Chickens in prime condition are free and bold in gait, quick in action, with clear and sparkling eye. The bird is plump, solid and firm. The plumage is crisp full and glossy. The comb is bright and red, and the fowl is neither too lean or fat.

When out of condition it is flabby in flesh, stupid and listless, has an insatiate appetite, but is apparently too lazy to hunt his food. The comb is dull, the eye lusterless, the feathers are persistently ruffled and either fall out or adhere to the skin with abnormal tenacity. Fowls in this condition may be readily cured by mixing a teaspoonful of HARVELL'S CONDITION POWDERS in the regular food. The result is always prompt and satisfactory.

Once a customer, you will always

STANDARD CUBEB CIGARETTES.

For Pains and Aches of every kind,
Dr. Herrick's Plasters are the best you can find.

Take Herrick's Sugar Coated Pills in the Spring of the year,
We recommend them for fever, ague and malaria.

Consider us a useful friend.

Give all our Medicines a trial.

Cholera Morbus is an acute catarrhal inflammation of the mucous membrane of both the stomach and the intestines. Its symptoms are too well known to require reviewal. They are provoked by the introduction into the stomach of irritants of all kinds, among which unripe fruit and vegetables play a conspicuous part. The onset of Cholera Morbus is sudden and violent, and generally after midnight. This characteristic fact should be borne in mind, and a reliable remedy kept ready for immediate use. Every remedial requirement will be found in **RENNE'S PAIN-KILLING MAGIC OIL**. By its adoption the excruciating pains may be instantly suppressed, and the vomiting and purging effectually checked. Only a few doses of this imperial preparation will be required in the severest cases. **RENNE'S MAGIC OIL** has no successful rival in the mastery of intestinal disease.

RULES FOR PURCHASE OF A HORSE.

Light sorrel or chestnut, with feet, legs and face white are marks of kindness.

A deep bay with no white hair has great bottom, but a fool, especially if his face is a little dished. These are always tricky and unsafe.

A black horse cannot stand the heat, nor a white one the cold.

The more white above the head the greater his docility and gentleness.

If broad and full between the eyes he may be depended on as a horse for being trained to anything.

Intelligent animals prick up their ears when spoken to, vicious ones throw their ears back.

Dish-faced horses must always be avoided, and a broad forehead, high between the ears, indicate a very vicious disposition, while the long neck indicates a good disposition, contrary wise if short and thick.

The nostrils of a good horse should be large; he should be about $15\frac{1}{4}$ hands high, head light and clean made. Wide between the nostrils, and the nostrils themselves large, transparent and open, broad in the forehead, eyes prominent, clear and sparkling, ears small and neatly set on, neck rather short and well set up, large arm or shoulder well thrown back, legs frail, flat and thin, and small bone, body round and rather light, full chest, back short, with hind quarters set on rather obliquely.

One night the moon shone bright,
'Twas late;
The foolish young man swung with her
Upon the gate;
And in the morning she was shook
With chills,
While spirits of nitre sweet he took,
And **HERRICK'S PILLS**.

Dyspepsia.—Probably more people are victims to this disease than any other complaint known to medicine. It is significantly characterized as the "Remorse of the Stomach," and in America, at least, is aptly termed the National Disease. The ailment is a functional derangement of the stomach, with deficient secretion of the gastric juice. It is due to various causes, principal among which may be mentioned imperfect mastication, overloading the stomach, bolting of food, nervous strain, etc. The manifold evils arising from these abuses, if long continued, terminate in serious impairment of the gastric glands; food is but partially digested, putrefaction and fermentation follow with their brood of attendant evils, the liver soon joins in concurrent issue with the stomach in the general whirl of devastation, and the miserable victim of it all becomes the most wretched of mortals—a confirmed dyspeptic. Such is the invariable course of true dyspepsia when left uncontrolled by remedial means. The first and most reliable remedy is **DR. HERRICK'S SUGAR-COATED VEGETABLE PILLS**. In cases of long standing a persistent continuance of this remedy is enjoined. Ordinary cases are completely cured in a few days.

THE SEVEN WONDERS OF THE WORLD.

First.—The Pyramids of Egypt, begun 1500 B. C., and completed 1082 B. C.

Second.—The Mausoleum, erected 350 B. C., over the tomb of Mausolus, King of Caria, by Artemisa, his Queen.

Third.—The Temple of Diana at Ephesus, built 552 B. C. It was 425 feet long, 225 feet broad, and was supported by 127 columns of Parian marble 60 feet high, each weighing 150 tons.

Fourth.—The walls and hanging gardens of the city of Babylon, which were constructed by Nebuchadnezzar, between 600 and 606 B. C.

Fifth.—The Colossus of Rhodes, which was a brazen statue standing over the entrance to the harbor of Rhodes, so large that vessels sailed between its legs. It was the work of Chares, and was erected B. C. 288 or 290.

Sixth.—The ivory and gold statue of Jupiter Olympus, made by Phidias 440 B. C.

Seventh.—The Pharaoh or out watch-tower, built by Ptolemy Philadelphus, King of Egypt, 280 B. C. It was a tower built of white marble, on the top of which fires were kept constantly burning. It stood at Alexandria, and served as a beacon light to sailors entering the bay.

The man who is inquisitive into the secrets of your affairs, with which he has no concern, should be an object of your caution. Men no more desire another's secrets to conceal them than they would another's purse, for the pleasure only of carrying it.

Look into the merits of all

Will relieve at once pains of all kind.

Dr. Herrick's Medicines.

We ask you to

THE BROOKLYN BRIDGE,

Cost about \$16,000,000, was opened to the Public May 24, 1883.

Its dimensions are as follows: Total length of Bridge with extensions, 6,537 feet; length of river span, 1,595 feet; width, 85 feet. Total height of towers above high water, 278 feet; height in centre of river span, 135 feet. Number of Cables, four; diameter of each Cable is $15\frac{3}{4}$ inches; strength of each, 12,000 tons; and each contains 5,296 parallel galvanized steel, oil-coated wires, closely wrapped to a solid cylinder. The average of persons crossing is 115,000 each day. In 1895 there were 44,564,329 carried; on Feb. 11, 1895, the largest number was carried, the total for the day being 225,645. The fare on cars is three cents, or two tickets are sold for five cents. Foot passengers free.

Rheumatism is a constitutional disease characterized by inflammation in and around the joints. The complaint is due to an excess of LACTIC ACID in the blood. The exciting causes are usually exposure to cold and chilling of the body. The swelling of the joints is visible evidence of inflamed tissues. The pain is due to the extreme tension of the affected parts and to pressure. The true danger to be dreaded in articular rheumatism is its marked tendency to attack the heart. As the disease continues the blood is more and more vitiated, profuse acid sweats and scanty high-colored acid urine become prominent symptoms, the pain increases, the joints affected stiffen, and soon their power of movement is wholly lost. The treatment is obvious and consists in ridding the blood of its poisonous elements, guarding the heart against threatened invasion and to allay pain. The first of these requirements is fully subserved by the repeated administration of DR. HERRICK'S SUGAR COATED VEGETABLE PILLS. There is no remedy superior in its blood cleansing efficacy to this pure, harmless, botanical preparation. This fact has been thousands of times verified at the bedside, and so have exalted its virtues above the possibility of cavil. To protect and fortify the Heart we unreservedly commend DR. HERRICK'S PERFORATED BELLADONNA PLASTERS. To relieve the pain cover the joints with linen pledgets saturated with RENNE'S MAGIC OIL.

HERRICK'S PERFORATED BELLADONNA PLASTERS.

When Baby with Colic awakes at night,
Give her Magic Oil and she will be all right.

Harvell's Powders all our friends say
Lead, and are in front, in every way.

for all pains.

Renne's Pain-Killing Magic Oil

Biliousness is characterized by gastro-intestinal derangements, yellowness of the skin, heavy, dark urine, coated tongue, nausea, feverishness and mental depression. It is caused by the obstruction of the bile ducts through an effusion of serum into the submucous tissue, thereby impeding the outward flow of bile, which, being thus retained, stains the liver by absorption, and makes its appearance in the blood. DR. HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS, by their alterative, diaphoretic, stimulative, diuretic and laxative qualities, will promptly harmonize the digestive element, remove congestion, and speedily restore the torpid organ to its normal activity.

BICYCLE RULES.

Do not ride a wheel until you have mounted it.

When you meet a young lady acquaintance during your first ride in the street, smile confidently, take off your cap with either hand, or both, and choose a soft place to fall.

Rest your chin on the handle bars. Any other position would give the impression that you were a novice.

If a horse and vehicle are ahead of you, ride by at a speed of not less than thirty miles an hour. It is so refreshing for the nerves of the horse if the animal is a little high spirited.

Never sit erect in your saddle. It is too good for your health.

If a doctor tells you to ride for your health, begin by a hundred-mile trip the first week. You won't need the wheel for a long time after that, and probably will have an excellent opportunity to better cultivate the acquaintance of the doctor.

If a wheelman falls in front of you, do not stop to be graceful in dismounting. Get off the very best way you can without losing time.

If you are hollow chested, long necked and long armed, drop your handle bars to the limit and lean at right angles to the saddle. You won't look pretty, but no one can see your face.

If you are embonpoint, so to speak, and short armed, lean back as far as possible and push forward. Do not be surprised if you attract attention.

Ta Rara—"It's no use, dear Oliver ; I've got ter work."

Ollie—"Heavenly Twins, Ta Ra ! Is de worl' comin' to a end, er hev yer taken leave er yer sensis ?"

Ta Rara—"Naw, nit ; but a leddy giv me some maccaroons, an' der was a cake er yeast among 'em 'n' I swallowed it, 'n' I guess you'd work, too, if you'd met with such a horrible accident."

Ominous.—This is the admonition which appears in the window of a cheap restaurant: "Dine here, and you will never dine anywhere else."

Dysentery is always to be looked upon as a serious disease. Its frequency and debilitating ravages give ample reason for the dread which it engenders. Dysentery is an acute inflammation of the mucous membrane of the large intestines, and is characterized by frequent, small, mucous and bloody stools. It is commonly caused by atmospheric changes, such as hot days and cool nights, and sometimes from malarial influences, but rarely from errors in diet. A specific cure may be found in RENNE'S PAIN-KILLING MAGIC OIL. The dose and frequency to be governed by the severity of the case.

TEN TIMES SEVEN.

Some modern philosopher has given in these eleven lines the summary of life :

| | |
|--|----|
| 7 years in childhood's sport and play..... | 7 |
| 7 years in school from day to day..... | 14 |
| 7 years at trade or college life..... | 21 |
| 7 years to find a place and wife..... | 28 |
| 7 years to building upward given | 35 |
| 7 years to business hardly driven | 42 |
| 7 years for some wild-goose chase..... | 49 |
| 7 years for wealth and bootless race | 56 |
| 7 years for hoarding for your heir..... | 63 |
| 7 years in weakness, pain and care..... | 70 |
| Then die and go—you should know where. | |

Vomiting.—This distressing condition is purely a neurosis. It may be due to undigested food or other excitants of the gastric nerves. When it is complicated with headache it occasions unlimited wretchedness. DR. HERRICK'S SUGAR-COATED VEGETABLE LIVER PILLS may be taken with absolute confidence of relief. In the VOMITING OF PREGNANCY, perhaps no treatment has received such hearty and enthusiastic endorsement by married women as DR. HERRICK'S VEGETABLE PILLS. They also have the advantage of perfect harmlessness in their action, which cannot be truthfully claimed for the Muriate of Cocaine and other remedies commonly recommended in this complaint.

How Salt was Formerly Made.—The art of making salt was known in very early times to the Gauls and the Germans. The process was very simple, for they did nothing more than throw the salt water on burning wood, where it evaporated, and left the salt adhering to the ashes or charcoal. The ancient Britons probably extracted the salt by the same method, for in the Cheshire salt springs pieces of half-burned wood have been frequently dug up. The Romans made salt a source of revenue 640 years B. C. Part of the pay of the Roman soldiers was made in salt, which was thus called *salarium*, whence we derive the word "salary."

HERRICK'S PERFORATED STRENGTHENING PLASTERS.

To purify the Blood and clear the Complexion,
Use Dr. Herrick's Pills, they will give satisfaction.

When your back aches from labor and toil,
Always use Renne's Pain-Killing Magic Oil.

is the only original of its kind.

ITEMS OF INTEREST.

The value of a ton of pure gold is \$602,799.21.

The Great Eastern was the largest ship ever built.

It is estimated that there are 400,000,000 mummies of human beings in Egypt.

Salt and water make an excellent remedy for inflamed eyes. Hemorrhages of the lungs or stomach are often checked by small doses of salt.

To remove a glass stopper from a bottle, when it is tightly wedged in, hold the neck of the bottle over a lighted match, or place in hot water a few moments. Heat will expand the glass.

To clean the railing of banisters, wash off all the dirt with soap and water, and when dry rub with two parts of linseed oil and one of turpentine. If the odor of turpentine is objectionable use two parts of sweet or cottonseed oil and one part of alcohol, but the mixture of linseed oil and turpentine is the more desirable.

INCOME OF EUROPEAN SOVEREIGNS.

Austria Hungary, Emperor of, \$3,875,000.

Bavaria, King of, \$1,412,000.

Belgium, King of, \$660,000.

Denmark, King of, \$227,775 ; and Crown Prince, \$33,330.

Greece, King of, \$260,000 ; including \$20,000 a year each from Great Britain, France and Russia.

Netherlands, Queen of, \$250,000 ; also a large revenue from domains, and \$62,500 for royal family, courts and palaces.

Italy, King of, \$2,858,000, of which \$180,000 for family.

Norway and Sweden, King of, \$575,525.

Portugal, King of, \$634,440.

Prussia, King of, \$3,852,770 ; also a vast amount of private property, castles, forests and estates, out of which the court expenditure and royal family are paid.

Roumania, King of, \$237,000.

Russia, Czar of, has private estates of more than 1,000,000 square miles of cultivated land and forests, besides gold and other mines in Siberia. The annual income has been estimated at about \$12,000,000.

Saxony, King of, \$735,000.

Servia, King of, \$240,000.

Spain, King of, \$1,400,000, besides \$600,000 for family.

Wurtemberg, King of, \$449,050.

An inch of rain means 100 tons of water on every acre.

The highest denomination of United States legal tender notes is \$10,000.

The Capitol building at Washington, D. C., is the largest building in the United States.

The great wall of China, built 200 B. C., is 1,250 miles long, 25 feet high, and 25 feet thick at the base.

A dish of water placed in a hot oven where pies, cakes, or puddings are being baked will prevent them from scorching.

A little soap eases wonderfully the labor of cleaning a stove. Rub a flannel rag on the soap, dip it into ordinary stove blacking and apply to the stove ; finish with a dry cloth. The work will be done quickly, and will last much longer than without the soap.

To Keep Fruit.—To keep grapes or other fruit fresh, wipe clean and dry and cover or bury them in commercial borax. Only sufficient borax is required to cover the fruit nicely. This process is said to be very successful in California and is highly recommended.

An excellent wash for plants is tobacco water. Take a handful of tobacco stems and steep them by pouring boiling water over them until the water looks like strong tea. When the water has become cool, wipe off the leaves and stems with a sponge or soft cloth. Reduce the strength of the infusion with more water, and thoroughly wet the earth around the roots. This will keep plants healthy and remove all insects.

Farmers rarely gain by holding on to their grain after it is fit for market, when the shrinkage is taken into account. Wheat from the time it is threshed will shrink two quarts to the bushel, or six per cent. in six months, in the most favorable circumstances.

Corn shrinks much more from the time it is first husked. One hundred bushels of ears, as they come from the field in November, will be reduced to not far from eighty.

In the case of potatoes, taking those that rot and are otherwise lost, together with the shrinkage, there is but little doubt that between October and June the loss to the owner who holds them is not less than thirty-three per cent.

Harvell's Powders, the Best,

PERRIN'S FUMIGATOR AND CIGARETTES.

Herrick's Pills, you will always find,
Cannot be equalled for all mankind.

Belladonna Plasters have true merit;
If used for pains, you will give them credit.

are offered at same price as inferior goods?

Why use others, when

NEW YORK POST OFFICE,

Situated at the junction of Broadway and Park Row, is the largest Post Office building in the United States.

LAST REPORT OF BUSINESS TRANSACTED.—Total number of pieces handled of all kinds of Mail was 1,361,356,483, a daily average of 3,729,744. The sale of all Stamps, Envelopes, Cards, Newspaper Stamps and Postage Due Stamps amounted to \$7,738,902.66. There were issued 92,147 Domestic Money Orders amounting to \$1,119,015.57, and paid 2,096,445 amounting to \$10,293,547.33. Of International Money Orders there were issued 27,104, amounting to \$447,601.88, and paid 57,741, amounting to \$526,520.93. This Post Office receives all Foreign Mail for the United States, employs about 1,500 clerks and heads of departments, exclusive of 150 carriers—this does not include carriers connected with sub-stations. Expenses, including clerk hire and Postmaster's salary of \$8,000, amount to \$3,133,465.

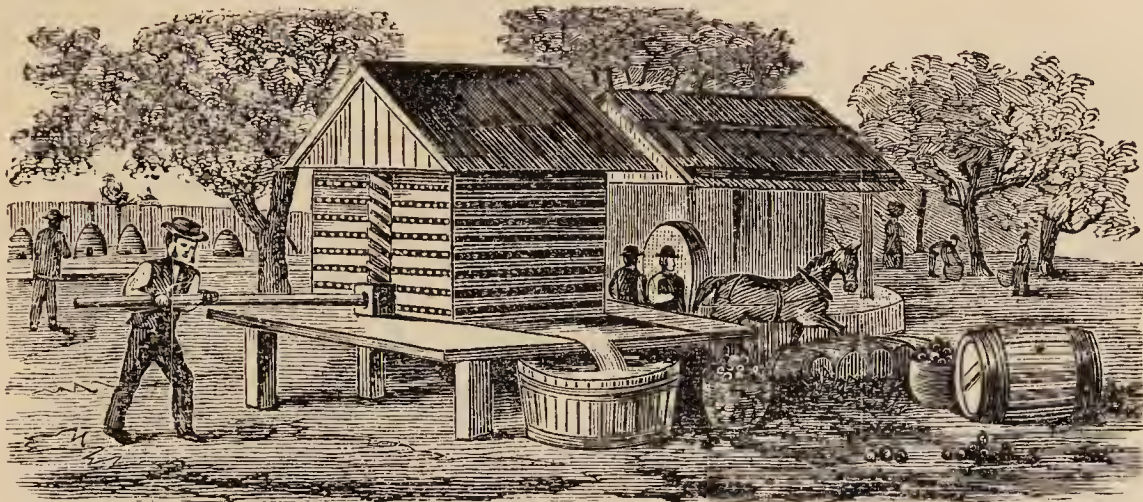

Hog Cholera, outside of the prevailing diseases of porcine life—ulcerations of the liver and lungs—is undoubtedly the scourge of piggie's existence. The dreadful ravages of this disease have depleted, by thousands of dollars, the annual income of raisers of this line of stock. Only within recent years have the great western dealers learned of the unfailing efficacy of **HARVELL'S CONDITION POWDERS** in this formidable disease. Since its trial and wonderful success, however, a perfect avalanche of testimonials have come to us couched in almost extravagant terms of praise. It is hailed as an absolute specific, and everywhere recognized as the best and only reliable cholera cure in the world. Only a few doses of **HARVELL'S CONDITION POWDERS** administered in the animal's food—no matter what its character—will positively cure every case **ATTACKED**.

Sheep, when nurtured in proper form, yield a handsome revenue to the owner. Owing to local conditions of environment such as low and swampy pasturage, sheep contract the very serious malady known as Foot Rot. The first indication in treatment is the animal's removal to high and dry roaming grounds. The feet should be first thoroughly cleansed and afterwards saturated with **DR. HERRICK'S GERMAN HORSE LINIMENT**. In addition a diurnal dose of **HARVELL'S CONDITION POWDERS** is enjoined. By judicious care and the patient use of these remedies the disease may be mastered and thoroughly cured.

HERRICK'S STRENGTHENING KID PLASTERS.

After the doctor has tried his skill,
Then resort to a Herrick's Pill.

11th Month. NOVEMBER, 1897. 30 Days.

If Rheumatism you would foil,
Rub yourself with Renne's Oil.

We trust our friends will always

Always reliable, and sure to cure.

Harvell's Condition Powders.

This excellent remedy, or concentrated combination of remedies, is known, used and blessed by nearly every true lover of the horse throughout the land. Perhaps no preparation of its kind has ever before achieved such universal success, or received more honest and deserved praise than HARVELL'S CONDITION POWDERS. They represent the best of horse and cattle medication, and compel spontaneous admiration wherever used.

The early history of the horse—man's most useful and important friend—is buried in obscurity. He was known among the Egyptians over 1,500 years before Christ, and according to the old Mosaic law, came, with man, from the far Orient. Beyond this our records fail to reveal. For magnificence of proportion, elegance of contour, docility of nature, exuberance of spirit and gentle submission to man's dominion, the world renowned Arabian easily excels. From this superb origin with myriad crosses sprang the horses of to-day. The American horse is the offspring of a mixture of Spanish, English, Barb and Arabian importations. They stand high for endurance and as trotters are unexcelled. But it is not our present purpose to dwell over the HISTORY of the horse but to present means for his improvement in the interests of owners. For the sure accomplishment of this end we unreservedly commend HARVELL'S CONDITION POWDERS. They produce a fresh and healthy action in all forms of disordered functions; soothe the general Nervous System; correct excessive muscular activity, as in Colic, Tetanus, etc.; increase the Digestive Secretions; augment the spirits when depressed; counteract the ill effects of over-exertion; subdue irritations of Bowels, Kidneys and Bladder; promote suppuration, and hasten the healing of Wounds and Ulcers; are taken up by the blood and by elimination act directly upon the Kidneys; almost instantly relieve Pain and Inflammations of internal parts, act specifically in Coughs and Colds; allay Fever by increasing the secretion of the urine; relieve obstructions or Spasms of the Bowels; restore tone to the Stomach when impaired by bad management or disease, and permanently augment the vigor of the whole body.

The following ailments are cured by HARVELL'S CONDITION POWDERS, viz.: Discharge from the Nostrils, Scratches, Influenza, or Distemper, Glandular Swellings, Swollen Legs, Wind Colic, Bridle Swellings, Worms, Sores from Constant Bleeding, Sore Throat, Gripes or Belly Ache, Inflammation of Stomach and Intestines, Broken Wind, Coughs or Colds, etc.

It should be remembered that HARVELL'S CONDITION POWDERS are not only good for the Horse, but are equally efficacious in the treatment of Sheep, Hogs, Poultry and Cattle. For many years this preparation has held the market, and long since the people have ceased to wonder at the uniformity of its cures. Have YOU tried them? If not, do so with assurance of prompt and satisfying results. They never disappoint.

Beauty.—A beautiful woman is chief of Heaven's choicest creations. The subtle charm of woman's grace and loveliness has always swayed the destinies of man, and doubtless ever will until Time and Eternity are one. Since the days of Eden woman's mind has sought to enhance the natural attractions which came to her at birth. Scripture bears us out in the case of Jezebel, who prepared herself for the meeting with Jehu by first PAINTING HER FACE. This very delectable practice owes its origin to the prevalent customs of the Orient, and is much in vogue, as well, in Occidental nations, especially throughout Japan, where the public appearance of a belle without a deft and plentiful garnishment of powder and red paint, would be esteemed abundant cause for society's censure as an almost unpardonable breach of etiquette and good form. Its tremendous popularity within the confines of civilization—right here among ourselves—is incalculable. This is evidenced by the myriads of lotions, powders, washes and cosmetics with which the country is flooded. The greater majority of those alleged "Beautifiers" contain arsenic, and other equally poisonous ingredients, which, eventually destroy all semblance of beauty on the surface to which they are applied. They vitiate the capillary blood supply of the face, arms and neck, destroy the dermal nerve action, clog the pores through which Nature breathes, and leave wrinkles and mottled skin in place of the vermil glow of perfect health. To banish these untoward results, and bring back normal energy and recreant beauty, to enrich the blood and cause the rich, pure flow of health and vigor to the parts, DR. HERRICK'S justly celebrated VEGETABLE PILLS are known to be specific, and should be given a place upon the dressing table of every beauty loving woman in the land.

Herrick's Capsicum Plasters

HERRICK'S SUGAR COATED VEGETABLE LIVER PILLS.

If you'd avoid a great disaster,
Wear on your back a Herrick's Plaster.

12th Month. DECEMBER, 1897. 31 Days.

You ask for the best; that is why

are always selected.

Still another cure for Ills,
Likewise use Herrick's Pills.

USEFUL INFORMATION.

Butter-milk, it is said, will take out mildew stains.

If a cucumber is cut into strips and the pieces put into places where ants are found, it will surely drive them away.

To remove rust from knives, cover the blades with sweet oil for a day or two and then rub with a lump of fresh lime.

Good grade stock that matures early and is of superior quality pays a good price for the farm feed and a profit on the breeding and feeding.

Rub cold tallow from a candle on to an ink spot; allow it to remain twenty-four hours and wash as usual. Properly done, this method is sure.

To Clean Clothing.—Dissolve borax in soft water and apply with flannel cloth, or sponge the spots on coats, vests or any woolen goods; it will not injure it.

Handsome parlor vases are usually filled with some such ingredient as sand to weight them and prevent the light porcelain from being brushed off the mantelpiece.

A return to the good old-fashioned way of raising a lot of good calves on the farm upon which they are to be fed is well worth considering at this time. But the calves to be produced must be strictly high class.

HOW TO MIX COLORS.

Red and black make brown.

Lake and white make rose.

White and brown make chestnut.

White, blue and lake make purple.

Blue and lead color make pearl.

White and carmine make pink.

Indigo and lampblack make silver gray.

White and lampblack make lead color.

Black and Venetian red make chocolate.

White and green make bright green.

Purple and white make French white.

Green and black make dark green.

Red and yellow make orange.

White and yellow make straw color.

White, blue and black make pearl gray.

Umber, white and Venetian red make drab.

White, yellow and Venetian red make cream.

Red, blue, black and green make olive.

Yellow, white and little Venetian red make buff.

When you have strained your plain boiled potatoes, take them at once to the open door or window and give them a vigorous shaking in the draught. They will become white and mealy. Try it once and you will do it always, so great is the improvement.

Horses fed in the middle of the day with broken and moistened grains will be in finer condition at night than those fed on whole grains. At noon they are in a tired condition, and the stomach is often unable to properly handle the food put into it, and they are put to work again before their ration is digested at all.

Butter as a Medicine.—English experiments have shown that good butter is equal to cod liver oil for consumptives and others needing to be built up in flesh, and that it is much more easily digested and hence it can be used in larger quantities. Many stomachs too delicate to digest cod liver oil at all readily digest large quantities of butter taken on thin slices of stale bread.

Sheep are peculiar in that they must have perfectly sweet food. Anything sour gives them fits, literally fits of various kinds, which the shepherd should guard against. So that it is somewhat questionable if the silo can ever become usable on sheep farms. But there is no possible question about roots, especially the sweet, palatable and nutritious sugar beet, or the succulent mangel.

Cracking of Pears.—There are some varieties of pears which are very subject to cracking of the skin, which soon after turns black, thus destroying the value of the fruit. The black is sometimes cut off, but what is left of the fruit lacks the fine flavor it should have if the skin had remained whole. The White Doyenne pear, known also under its old fashioned name, Virgalieu, is most subject to this disease, and its growing has, for this reason, been discontinued in some localities. But the disease is a fungus, and spraying with Bordeaux mixture has been found a preventive. It should be done early. The cracking generally begins about the time the seeds are forming in the fruit. It may be caused by a deficiency of potash in the soil, making it impossible for the tree to form the fruit seeds and ripen its fruit. Many fungus diseases are probably due to this cause, and a liberal supply of potash to prevent them is better than cure. But wherever the fungus is present, it should be destroyed by the Bordeaux mixture, and the trees then liberally supplied with potash to prevent its recurrence.

DR. HERRICK'S Capsicum or Red Pepper Plasters.

DR. HERRICK'S CAPSICUM PLASTERS are intended, as their name implies, for re-vitalization where debilitated organs are enfeebled by sickness or the taint of inherited weakness, and also for the purpose of fortifying them against the encroachment of threatened disease.

In all avenues of life may be found individuals, who, without being really ill, are constantly giving voice to imaginary aches and pains, and a multitude of indescribable sensations as intangible as

"The baseless fabric of a dream,"

and yet, to the sufferer, possessed of all the terrors of realism. These feelings are usually summed up under the comprehensive entity of "MISERABLE." Such unhappy mortals suffer from a morbid depression of the nervous system, and are commonly known as HYPOCHONDRIACS. For such as these, DR. HERRICK'S CAPSICUM PLASTERS will prove a jewel beyond price.

Again, in the mad, dizzy swirl of business life—in the insatiate eagerness of man to acquire a competence for himself and loved ones, he rarely pauses in his headlong plunge until overtaxed nature gives way and perforce he falls exhausted by the wayside. In the timely use of DR. HERRICK'S CAPSICUM PLASTERS, by which the vital principles are invoked, the powers of resistance are increased, the elements of nerve force restored, muscular activity aroused and once more

"Richard is himself again."

DR. HERRICK'S CAPSICUM PLASTERS will do more toward the restoration of health than all the medicines under the sun. They strengthen the muscular development, tone the nervous system, stimulate the digestive functions, purify the blood and transform pallid, weak and ailing mortals into strong, vigorous, virile men and women whose children, in after years, will rise up in the majesty of their inherited strength and call their parents blessed.

Dr. Perrin's Fumigator for Catarrh, and Standard Pure Cubeb Cigarettes.

These remedies, used successfully for years, stand without a rival for the cure of Catarrh in all stages of the disease.

BARTHOLDI'S STATUE OF LIBERTY,

Is situated on Bedloe's Island, New York Harbor, unveiled in 1886, and is the largest statue ever built.

Height of Statue is 152½ feet; the electric light held in the hand is 305 feet above tide water; head is 14½ feet in diameter, and the index finger is 8 feet in length. Weighs 440,000 pounds of which 146,000 pounds are copper, the rest iron and steel. Was presented by the French people in 1885, and cost over a million francs, which was paid by popular subscriptions. The pedestal was erected by popular subscription in this country and cost about \$250,000. It is square in form, built of granite and concrete, and is 152½ feet high.

A Quadruple Armor.

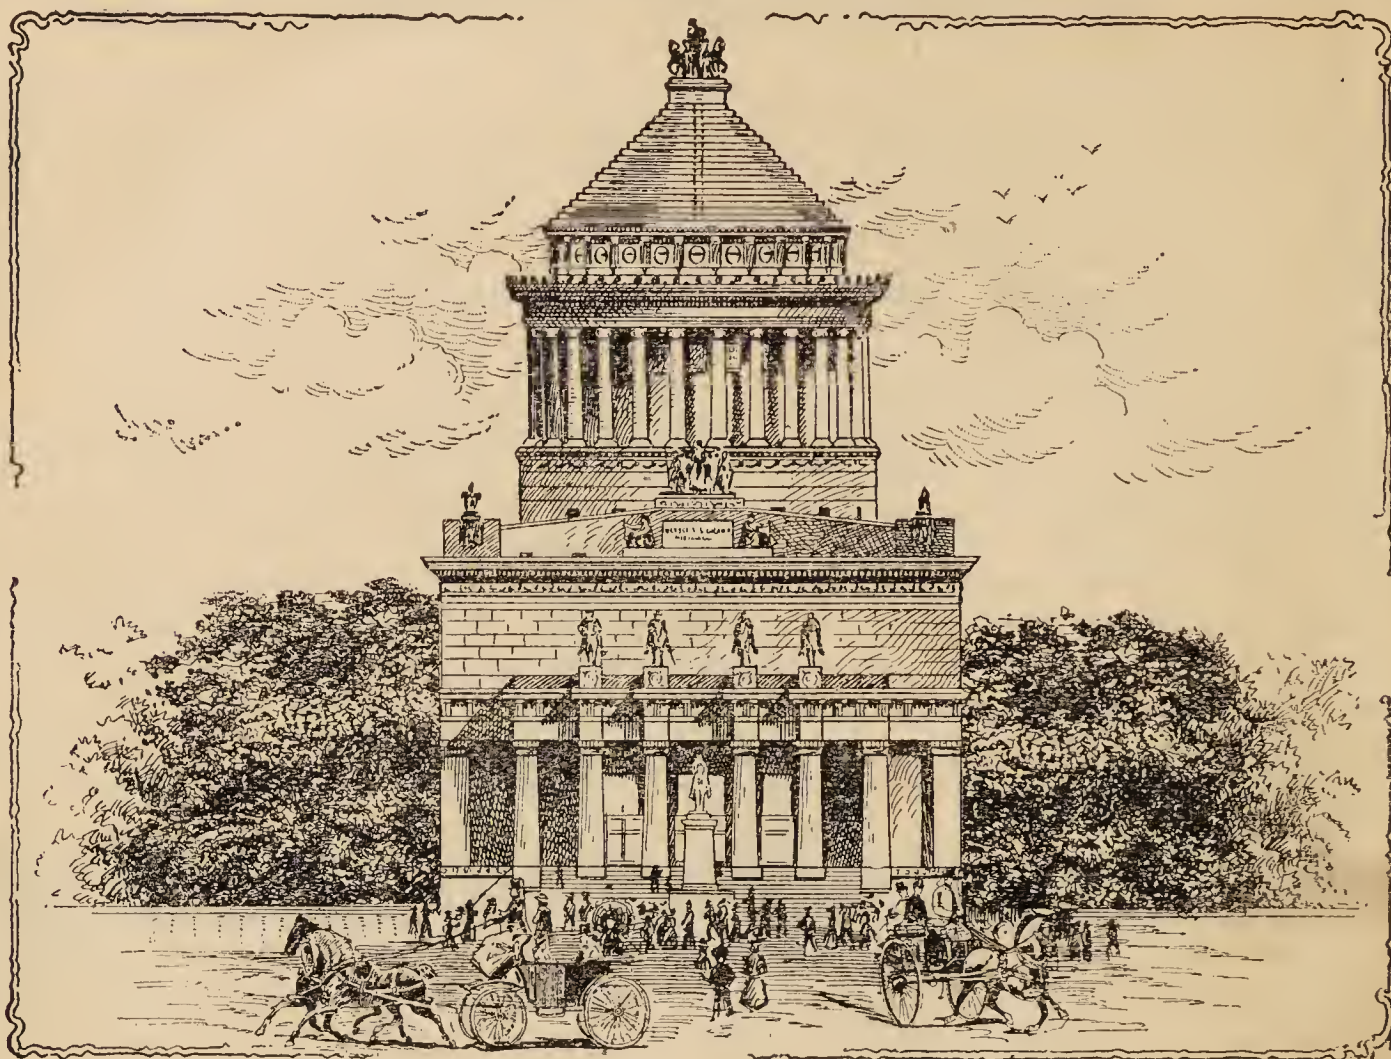

If DR. HERRICK had contributed nothing more for the benefit of the human family than his justly celebrated medicinal plasters, he might well afford to rest upon his laurels and richly deserve the unstinted gratitude of the people of all nations of the earth. Each of these famous plasters has a specific purpose, while together, they represent a greater curative power, and cover a wider sphere of genuine usefulness, than nine-tenths of all the vaunted drug preparations combined. This sweeping declaration is not born of fancy or a desire to unwarrantably boast, but is simply a composite expression of public opinion gleaned from the results of over sixty years practical test. Their separate claims to distinction follow :

Dr. Herrick's Perforated Strengthening Plasters.—It is a fact, beyond the possibility of cavil, that DR. HERRICK'S PERFORATED STRENGTHENING PLASTERS have long since distanced all competitors in the field. There are at least two positive reasons for this easily attained supremacy. One, the underlying merit of the goods—another, their wondrous mastery of debility in all forms of physical weakness. Their early and superb tonic effect upon abused and run down systems that are recognized by the world as “physical wrecks” is so rapid, thorough and profound, and the restoration to health so quick and sure, that one is urged to fancy the days of miracles are still extant. Their splendid reputation does not wholly rest upon their power to strengthen the weak, but as a PREVENTIVE OF DISEASE as well; they stand without a peer in the realm of medicinal excellence.

Dr. Herrick's Capsicum or Red Pepper Plasters.—The introduction of DR. HERRICK'S CAPSICUM OR RED PEPPER PLASTERS marked a distinct era in the advanced treatment of disease. They superseded the now almost obsolete and always barbarous mustard plaster, accomplishing all the claimed effects of mustard without the slightest degree of blistering or pain. Another advantage, and one of no little significance, is the fact that DR. HERRICK'S CAPSICUM OR RED PEPPER PLASTERS never deteriorate with age, and are warranted to be at all times ready for instant use. They occasion no delays in preparation, and may be implicitly relied upon for close and earnest work. They may be used with marked benefit in a multitude of conditions and will be found ever faithfully efficacious in breaking up a threatened invasion of disease. In all local disturbances requiring a counter irritant, as in Cramps, Colic, Dysentery, Diarrhoea, and in any and all inflammations, DR. HERRICK'S CAPSICUM OR RED PEPPER PLASTERS will prove a sterling and unfailing friend. In Pneumonia, Pleurisy, Bronchitis and other pulmonary complaints, these plasters have attained a reputation excelled by no like remedy in existence. Try them if occasion offers and be convinced of their truly wonderful merit.

Dr. Herrick's Belladonna Plasters.—The fame of DR. HERRICK'S BELLADONNA PLASTERS in the management of circumscribed complaints is so widely appreciated that a word to the wise will be all-sufficient. In those conditions, brought on by misfortune or necessity, where the young mother is unable to nourish the little infant in arms, the prompt and sure action of DR. HERRICK'S BELLADONNA PLASTERS are immeasurably the best and albeit the only treatment needed for the complete and painless suppression of lacteal secretion. They are also of astonishing benefit in all Pulmonary, Intestinal and Rheumatic Ailments. They are, without fear of contradiction, more extensively used in the cure and relief of inflammations and organic pain than any other medicine or means known to the medical profession and are freely prescribed by physicians everywhere.

Dr. Herrick's Kid Strengthening Plasters.—DR. HERRICK'S KID STRENGTHENING PLASTERS were the first and best beloved of DR. HERRICK'S early creations. Their successes in the cure of Inflammation of the Lungs is simply beyond computation. They are manufactured from the purest Balsams and Resinous Extracts of the forest pines. Blood-making Iron is a basic constituent in their composition, thus harmoniously combining the healing properties of the one with the strength producing qualities of the other. Cures from the use of DR. HERRICK'S KID STRENGTHENING PLASTERS are frequently reported where other forms of medication have failed. Try them.

GRANT'S TOMB.

General Grant's Tomb is in the upper part of Riverside Park, on the Banks of the Hudson. The Tomb is situated at 122d Street and Riverside Avenue.

Work was begun in erecting it on the anniversary of General Grant's birth, April 27, 1891. The Monument is expected to be completed in the early part of this year, and on April 27th the body is to be placed in a granite sarcophagus in the crypt, below the main floor. The exterior is of a light material, and the interior of a pure white, with the exception of some ornamentation, which will be of black. The cost, \$600,000, was all raised by popular subscription.

Dr. Herrick's Vegetable Liver Pills

Are recommended highly. Hundreds of letters are received daily testifying to their great success in toning the system and Cure of Sick Headache.

AN UNBROKEN SUCCESS OF OVER HALF A CENTURY
is an acknowledgment that Dr. Herrick's Liver Pills are the best you can buy.

Harvell's Condition Powders,

For HORSES, CATTLE and FOWL, are the standard everywhere. If you want the best, we advise that you use no others.

Renne's Pain-Killing Magic Oil.

RENNE'S PAIN-KILLING MAGIC OIL is a sparkling combination of aromatic agents and pleasing medicaments, wholly without oily taste, and free from disagreeable drawbacks of whatsoever character. It may be used internally or for outward application with equal certainty that its mystic charm will drive all pain from every organ, nerve, muscle, bone and sinew of the human body. It may be used with perfect safety by the young and old, no matter how enfeebled or delicate the subject. A trial will convince you, and the results add another to the endless list of grateful ones who praise RENNE'S MAGIC OIL for the intrinsic merit of its work.

To what, may be asked, does RENNE'S MAGIC OIL owe its reputation and its fame? We reply: To its instant mastery of pain, irrespective of character or location; and to its wonderful range of curative power in the treatment of nervous and functional complaints.

Perhaps in no field of usefulness is RENNE'S MAGIC OIL more promptly efficacious than in the treatment of the diseases peculiar to women. From the petty annoyances of periodical occurrence, to the serious conditions of organic derangement, RENNE'S MAGIC OIL will prove a friend, indeed, of inestimable worth. Every incoming mail brings to us evidence of the certainty of all we claim. RENNE'S MAGIC OIL will banish all tears and unhappiness from the fireside and leave contentment with all who use it.

Certain diseases of the skin have long baffled the most approved methods of medical treatment. Many of them become chronic and the sufferer's patience exhausted until at last he desponds utterly of relief. To such we offer the encouragement of honest belief that RENNE'S MAGIC OIL will surely and quickly cure. As a matter of fact RENNE'S MAGIC OIL has no equal in dermal irritations. It instantly destroys the effects of mosquito bites, neutralizes the stings of poisonous insects, and permanently cures Erythema, Herpes, Urticaria, Scabies, Pruritis, Lichen, Prurigo, Ringworm, Acne, Prickly Heat, Hives, Eczema, etc., etc., etc. The value of RENNE'S MAGIC OIL as an adjunct in the treatment of Measles, Chicken Pox, Scarlet Fever, and in truth all of the eruptive fevers cannot be overestimated.

RENNE'S MAGIC OIL should be in the armamentarium of every tourist, ball-player, bicyclist and athlete in the land, for its magical relief and cure of Contusions, Sprains, Cramps, Rheumatism, Lameness, Pains in Joints, Lumbago, Heartburn, Chafes, Wry Neck, and all physical derangements incident to muscular strain or overwork.

RENNE'S MAGIC OIL is also of infinite value in Colds, Sore Throat, Angina, Croup, Gastric, Renal, Hapetic and intestinal colics, Diarrhœa, Dysentery, Cholera Morbus, Summer Complaint, Migraine, all forms of Neuralgia, and in the treatment of Asthma, Pleurisy, Diseases of the Air Vesicles and Inflammations of every nature. In fact there is scarcely a single ailment in the entire category of human complaints that RENNE'S MAGIC OIL will not cure or speedily relieve. This sterling remedy has been for many years before the people, and our assertions are but a simple echoance of unsolicited praise. If in doubt, kindly accord to us your confidence, secure a trial bottle of RENNE'S MAGIC OIL and be astonished by the prompt relief, speedy cure and phenomenally small quantity of medicine required to make you well.

SPECIAL NOTICE TO CONSUMERS OF Renne's PAIN-KILLING Magic Oil.

We have greatly enlarged each size bottle, but the prices will remain the same. **25 cents, 50 cents and One Dollar a Bottle.**

All Medicines enumerated in this our Annual Almanac may be purchased in any part of the civilized world. This is our 61st year before the public, our business being established in 1835. We ask our many friends what house can point to such prosperity and unbroken success. It is with pride that we say to keep our old customers and increase their number with new ones every year is our constant aim, and it is only accomplished by mutual confidence and instructions very emphatically given to our chemists to make only the best goods, made from the purest ingredients that can be bought in the market. Reader, we trust you will kindly give our medicines a trial, which will firmly convince you of their wonderful curative powers; knowing this, we feel confident you will consider DR. HERRICK'S FAMILY MEDICINES, and RENNE'S PAIN-KILLING MAGIC OIL a necessity when needing a household remedy. Do not be deceived by an offer of something just as good (which by the way is certainly praise for our medicines), but always insist, and only accept the genuine.

Dr. Herrick's Family Medicines,

A. H. HALL, Pres.
